ISTERO-GRAFIA **Caroline Peyron**

Rome, Istituto Nazionale per la Grafica, Palazzo Poli

Opening, Friday April 12th at 5.00 pm
From April 13th to May 19th 2013

The Istituto Nazionale per la Grafica keeps on exploring the graphic experiences by female artists with the exhibition by the artist/director and photographer Caroline Peyron.
“Many streams, readings, sculptures, paintings and experiences come together towards a river named and shaped as **Istero-grafia**” says the artist. This river comes across the landscape of the *writing of the body*, the *writing on the body* and the landscape of the *writing of the courtly love*.
The show opens with the great theatre of neurosis and goes on with the great *shadow notebooks*. On the floor some objects next to abandoned male bodies as in the Pietà.

Caroline Peyron will hold two workshops related to the Istero-grafia exhibition, available to all-aged public, either they can draw or not. The artist will introduce the participants to a selection of prints and drawings of the permanent collection of the Institute, aiming to use one's creativity to find new and original graphic solutions
